

Fire Chief Warns of Fire Danger to Small Children

In warning parents to protect their children against death from fire, Fire Chief J. E. McMasters today cited figures of The National Board of Fire Underwriters which showed that out of 6,000 children who die from home accidents every year, more than 2,000 or 33 per cent are burned or scalded. Thousands more are crippled by burns.

Can Be Prevented
Yet many of these tragedies could have been prevented by a little care, the chief continued. He suggested that parents

National Guard To Engage In Field Training

Torrance and Lomita National Guardsmen will participate in two weeks' field training between August 1 and August 15, it was announced today by Major General Daniel H. Hudson, 40th Infantry Division commander.

The field training will be held at Camp San Luis Obispo and will mark resumption of pre-war, regular summer training exercises. The last were held during the 4th Army maneuvers in Washington in 1940.

Major Clyde C. Carpenter, who commands the 578th Engineer Combat Battalion, said the following units from Torrance will participate in the exercises:

Headquarters, 578th Engineer Combat Battalion, Torrance, commanded by Major Clyde C. Carpenter.

Headquarters Service Company, 578th Engineer Combat Battalion, commanded by 2nd Lt. Roy W. Sullivan.

Company A, 578th Engineer Combat Battalion, Torrance, commanded by 1st Lt. Merle R. Glib.

Strawberry Planting

BY AGRICULTURAL EXTENSION SERVICE
Spring is a better time for a strawberry planting than fall because during cold weather the plants stand still and may accumulate diseases of various kinds. The Klondike is the most satisfactory variety for backyard plantings in Los Angeles county. Given a good chance, plenty of fertilizer, kept free of aphids and red spider, the Klondike will give you more yield than any other variety for your time and work. The Bankers will give fair results. Many other varieties are offered for sale, but their performance in this area has not yet been proved. Rockhill is an everbearing variety which is not suitable near the coast.

Locally grown plants should be held at 35 degrees in cold storage for three or four weeks before planting. A circular on home strawberry culture is available from the Farm Advisor's office, 808 N. Spring St., Los Angeles 12.

HITS STUMP
Ralph Sherman Rusk, 30, 1646 Cabrillo avenue, received a cut forehead early Saturday morning when his car struck a tree stump in front of 22930 South Normandie.
